

COMPREHENSIVE PLAN OF THE YELLOW MEDICINE SWCD

The Yellow Medicine Soil & Water Conservation District (SWCD) is required to develop a Comprehensive Plan.

The Yellow Medicine SWCD has been an active participant in the development and all updates of the Yellow Medicine County Comprehensive Local Water Management Plan (CLWMP). The Yellow Medicine County CLWMP includes a map and description of the soil classifications within the district and identifies the areas within the district where erosion, sedimentation and related water quality problems are the most severe. The Yellow Medicine County CLWMP has been approved by the BWSR and has been determined to be in compliance with all laws and rules governing water in the State of Minnesota. Because the Yellow Medicine County CLWMP identifies high priority erosion, sedimentation and water quality problems in accordance with BWSR rules and guidelines, the Yellow Medicine SWCD adopts the Yellow Medicine County CLWMP as their Comprehensive Plan.

To see the most recent copy of the Yellow Medicine County Comprehensive Local Water Plan look under Yellow Medicine County Local Water Plan on the Yellow Medicine County's Website at:
